

GMA GARNET GROUP

when your abrasive matters!

- General information -

TetraCORE™ the new orifice for the best cutting performance, already available from
GMA Garnet (Europe) GmbH

We are pleased to announce you our new **TetraCORE™** orifice, which shows a lifetime performance up to

500 hours

The cutting performance depends on the water quality, pump pressure and the waterjet application.

TetraCORE™ eliminates the problem of downtime for the disassembly and assembly of the cutting head components and increases at the same time

The cutting quality

The performance of the focusing tubes Roctec 500

TetraCORE™ is distributed exclusively by the GMA Group or its authorized distributors.

Further advantages of **TetraCORE™**:

- LONGER CUTTING HOURS
- MINIMIZED MATERIAL WASTE
- REDUCED OPERATING COSTS
- GREATER JET STREAM CONSISTENCY
- LESS SUPERVISION REQUIRED
